

### Features:

The LPG and BI-polar Radio Frequency body shaping equipment has unique tailored vacuum heads fit to different parts of the human body. The controller on the headpiece has an adjustable intensity. It is effective to dissolve cellulite and reduce fat cells.

### Therapy:

Combined Vacuum + Radio Frequency + LED vacuum massage:

1. Has a mechanical roller to stimulate cellulite tissue.
2. Promotes blood circulation, and accelerates lipolysis.
3. Removes orange tissue, improves fat accumulation.
4. Combine the bipolar radio frequency with LED to effectively tighten and rejuvenate the skin..
5. Body shaping.

### LED:

1. The LED stimulates the regrowth of collagen and recover the skin's elasticity. This also tightens skin pores.
2. Lightens and removes pigments, scars and sensitive skin.
3. Rejuvenates the skin and shapes the face.
4. Lifts and tightens the skin. Removes even small wrinkles near the eye, neck and mouth.
5. Relaxes the skin.

### Radio Frequency:

1. Bipolar Radio Frequency
2. Promotes lymph circulation and metablosim, accelerates fat burning, de-toxin and improving well-being.
