

This equipment applies pure natural Jade, based on Chinese traditional Medicine. Jade contains the elements calcium (Ca), magnesium (Mg) and other components which the human body needs to activate cells, promote blood circulation and metabolism, de-toxin and enhance human immunity. Furthermore, it is effective to improve a lot of chronic diseases such as rheumatism, rheumatoid arthritis, etc.

The uniquely designed head can be used for facial and body. The jade pad can be used for foot care, kidney well-being and ovarian maintenance.

The temperature of the jade is adjustable, the maximum temperature being 65°C.

Used with the PDT head it is effective for skin lifting, anti-aging, removing freckles, tightening the skin and improving skin elasticity.
