

Meso & Magnetic Wave Beauty Equipment

- Mesotherapy
- Magnetic Wave

Acts directly on the skin, instantly enhancing skin tissue penetration. Under the function of electroshock, holes will be formed in the lipid molecule which have not been absorbed originally can penetrate into inner cells. The valid absorption ratio is over 400 times higher. Uses far infrared thermal penetration and the microwave vibration theory, activate the body cells, promote metabolism, lymph drainage, increase nutrient uptake, tightening skin and slimming.

Mesotherapy Equipment

Electrophoresis technique: under the function of the electrophoresis field, the cells membrane temporarily appears microporous, as a result, the inner and outer molecules of cells exchange more easily, it helps the cells absorb all kinds of medicines, gene substances, collagen and other large molecules. After the electric field cancellation, the micro pores will be close.

Electoaccupuncture Equipment

This accupuncture equipment is a new generation of health product made in accordance with the principles of physics, bionics, electro biology and the theories of traditional chinese medicine after many years of clinical experiments and development. It can tighten the whole body, seed muscle, drain lymph; inflame fat, repair cell, reform skin character; promote sleep, sculpture breast.
